Without prepayment

Hello, dear friends! The advantages of the application well stay finder include not only very low prices, but also advantageous terms of payment for the booking

In most cases, the customer can pay for the reservation on the place. Upon arrival at the hotel you can always pay in cash, and the vast majority of spa hotels accept VISA, MasterCard, Maestro and other popular payment systems.

A little advice: practice shows that paying in cash is more profitable than using a card. The fact is that when you pay with a card, the currency is converted at the internal rate of your bank, and the bank can charge a fee for the transfer of funds, while you can buy the currency yourself at the exchange office at a more favorable rate. :))
